

FIRE UP!

Leadership

Worksheet Packet

BEFORE YOU GET STARTED

- * The worksheet begins with chapter 7.
- * All of the answers to the fill-in-the-blank statements are in the book in the designated chapter.
- * The only part of the worksheet not in the book is the area under FOCUS relating to Ephesians 4. The author feels all local church ministry should be centered around the components of Ephesians 4. As you study FOCUS, you should do so with the question, “How does my ministry produce the fruit mentioned in Ephesians 4?”.
- * This worksheet should be seen as an aid for teaching/study of FIRE UP! Leadership.
- * This worksheet should not take the place of the Let’s Get Personal section at the end of each chapter. The questions in the book are intended to provoke thought and contextualization of individual ministry contexts. These questions should make each chapter come alive to the reader.
- * Depend on the Holy Spirit to illuminate and lead as you unpack the principles of this book. This work is produced from a genuine burden for the local church and those who lead in it. The desire is for each leader to come away from this study stronger and more determined to make a difference. It’s going to happen!
